

STEFANUS TITAN ELIANTO

Bandung, Indonesia | (+62) 898-018-8135 | stefanustitan@gmail.com | [LinkedIn](#) | [GitHub](#)

Frontend-focused Software Engineer skilled in building responsive, scalable web applications with React, Vue, and Next.js. Strong foundation in modern JavaScript/TypeScript, UI/UX design systems, and API integration. Proven ability to deliver production-ready features, reusable components, and performance optimizations that improve development efficiency and user experience.

EXPERIENCE

Software Engineer Intern | GenTech AI Sdn Bhd | Kuala Lumpur, Malaysia (Remote)

Feb 2025 – Aug 2025 (Completed)

- Built 20+ production features for AI-driven solutions (document management, real-time AI chat, AI image extraction from PDF/DOCX with AI recommendations integration), integrating 30+ REST APIs and third-party services (WhatsApp Business API, AI/chat/document-processing APIs) with secure auth, webhooks, and real time messaging.
- Engineered responsive, reusable UI components in Vue 3 and React across 4 production apps (streaming chat, analytics dashboards, dynamic search/filters) and created a standardized design system for uploads/validation/data display that cut development time ~40%.
- Improved reliability and observability by migrating background jobs to BullMQ (reduced processing lag, increased reliability), implementing robust error handling/retries and real time sync, and adding comprehensive backend logging covering 100% of endpoints to streamline debugging.

PROJECTS

LifetimeArt | Website | React, Next.js, GSAP

- Developed landing page with pixel-perfect implementation from Figma
- Added smooth, performant animations on elements in the page with GSAP
- Repo: [StefanusTitan/lifetime-art](#) | Demo: [LifetimeArt](#)

EDUCATION

Bachelor's degree in Informatics | Institut Teknologi Harapan Bangsa

Graduated Aug 2025

- Distinguished member of the Dean's List
- GPA: 3.76

SKILLS

- **Frontend:** JavaScript, TypeScript, React, Next.js, Vue.js, Pinia, Vite, HTML, CSS, TailwindCSS
- **Backend:** Node.js, Python, Golang, Jest (Testing)
- **Databases:** MongoDB, MySQL
- **Version Control / Workflow:** GitHub, Agile (SCRUM)
- **Languages:** English (Fluent), Bahasa Indonesia (Native)
